

### Partnership Support Officer: Dawn Wilson

I live in a beautiful Hamlet in North East Wiltshire underneath the Marlborough Downs. Having come from the busy City of Leicester there is much to appreciate about rural Wiltshire and the people who live and work here. As WFCAP partnership support officer I cover all of Wiltshire and get to see the hard work that volunteers on all the CAPs and Networks deliver in their communities.

I try to use these good examples to inspire others and to help them stay connected both face to face and through our ebulletin and social media. Having had diverse careers from working with horses and on a farm, to teaching ICT, I am now a Parish Councillor and volunteer as a community reporter for the Pewsey Community Area. I am also volunteering in my spare time supporting the Pewsey Youth Advisory Group with an Olympic Legacy project running for teenagers during Carnival fortnight called Have a Go. My main interests are reading and walking along with astronomy, although recent months have made that difficult with the cloud cover! I have also been having fun the last few weeks making short films with my mobile phone.
